Rec Park pays off investment property...

Willunga Recreation Park, Main Rd, Willunga.

Ten years ago the Willunga Recreation Park Inc purchased the old Willunga Police Station when it was decommissioned. It was an ideal opportunity to invest in a property adjacent to existing Rec Park facilities. Now after many years of fundraising and rental income the mortgage has been paid off. This is a great boost for the viability of the Rec Park to fully own an asset which will bring ongoing income to support the administration and maintenance of facilities at Rec Park. The Rec Park committee is preparing a longer term strategic plan and is keen to secure further such investments which in turn will ensure a robust and vibrant Recreation park which can provide even better facilities and service to the people of the Willunga district. Current tenant of the old police station is Lee James and the 'School of Rock'. Lee has set up an

impressive panel of music teachers providing a diverse musical opportunity to both local and neighbouring clients ranging from 8 years to the 60's. Lee has sought to provide a balance in things to do for the youth of Willunga catering for the musical artists of the region and has impressed Rec Park committee with his achievements to date.

Newsletter No. 6

February 2008

From your Secretary...

Willunga should be well pleased with the presentation of their beautiful town to the World with the 10th Birthday of Tour Down Under.

Howard Salkow and his wonderful committee together with others who have been inspired with the manner in which the tour arrangements have been handled did Willunga proud. They even arranged the weather!!

Management Committee have their first Meeting for 2008 on 6th February, when Howard as our President will put forward plans for the New Year. We are confident that this will be a year to see a "come alive" Willunga Business & Tourism Assoc Inc working to promote business, tourism and culture to Willunga.

We will be making our first obligation to visit the various new businesses that "In-a-Nutshell" have found for us. This will be in an endeavour to attract new members - with new ideas and more importantly - their input to our Association.

10th Anniversary Tour Down Under Wrap-up...

What's exciting about special events are the opportunities available to launch fresh initiatives. These ideas invariably follow brainstorming and a group of people then decide what works best.

It was no different preparing for the fifth stage of the 2008 Tour Down Under. Some of the ideas were born earlier in the

piece, while others emerged later following changes to the organisational committee. It would therefore be remiss of me if I did not acknowledge Kees van Driel for introducing the idea of the birthday cake and the face board.

And with the major objective of ensuring there was a lot to do, especially when the riders left town, we

promoted the idea of the Farmers Market joining forces with the Quarry Market. In addition, and on the TDU podium, we had a fashion parade presented by The Green Room, Tall Poppy Productions and The Spock Sisters; a concert by Julia Henning who also sang the national anthem at the start of the race; a continuous video presentation of the 2007 TDU and a display of the town's TDU awards in the Institute Hall; a hat competition and the Native Animal Network.

Like anything new, each will be evaluated, improved upon or scrapped. But the most significant issue to emerge from the 2008 TDU in Willunga is that sections of the community are eager to try something different and unique.

It is with this in mind that we thank the many sponsors who came on board, some of whom created their own touch. Their support, along with the City of Onkaparinga, provided the leeway for creativity, and for this we are grateful.

Events of this nature require many hands and this year, we were fortunate in that many of our youth volunteered. Some 30 people of all ages assisted in stuffing the goodie bags, and when it came to inflating and dressing the balloons, once again the young folk dominated.

In this context, I would like to thank Zac Benson, Talen Crone, Katarina Hand, Alex Francis, Kiaya Wilkins, Gemma, Zoe and Lily Ingoldby-Craig, Jack, Liz and Jenny Ingoldby, Kaz Benson, Julia Hand and Cherie George, who made the task a lot easier.

In setting up our various activities, we were fortunate to obtain space in the CWA and the Show Hall and we are grateful to

Moss Hancock, president of Willunga Recreation Park. Another key area for us was the library car park and we owe huge thanks to Helen McSkimming, who went out of her way to meet our various needs and wants.

The members of the 2008 TDU Willunga Committee all provided their own unique qualities and I would like to thank them for their incredible commitment. It's not often that a committee enjoys almost 100 per cent attendance at meetings! My thanks go to Julia Hand, Corina and Brian Kowald, Jenni Mitton, Kazz Benson, Cheri George and Alexia Roberts. And a special thanks to Dr Michael Pacillo for his time and commitment.

I know I have missed others, but as a committee, we appreciated your assistance – especially starting at 5am on race day – and hope you had fun.

What's next? The 2009 route and dates should soon be out and one suspects Willunga will again be part of the action. And locally, the Willunga Business and Tourism Association (WBTA) will assess this year's event and begin preparations for 2009.

From the Editor...

Thankyou to Willunga National Trust for inviting the InaNutshell Team to their Christmas get-together. A good time was had by all. See photo below.

BIG APOLOGY... InaNutshell advertised a Community Forum for January 24. This was cancelled. Also very few Farmers Market stallholders joined the TDU Quarry Market. We are sorry to folks who specially ventured out to either event.

It is twelve months... since I took on the editorship of InaNutshell. Thankyou to Willunga people for your ideas in developing this newsletter further. I continue to wish your previous editor, Joan Turner and her husband Phil an enjoyable retirement.

Second printing... Last month we printed an extra 100 newsletters part way through the month, taking the total for January to 800. Our first issue in February 2007 was just 300 copies.

Bookings now open... If you want your Community Group "Showcased" on the InaNutshell front page, please let us know, so we can book you in the 2008 InaNutshell Diary.

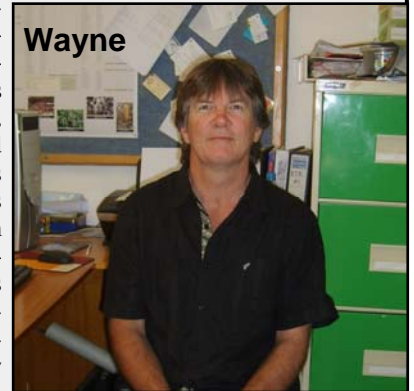

Rilda Offe and team.

PS The March InaNutshell may be a bit late as I will be interstate for a few weeks.

Two WEC project officers...

Wayne Lawrence of "Restoring Balance"...

Wayne operates an environmental consultancy business from the Willunga Environment Centre that specializes in environmental restoration, water-course rehabilitation and project management. Wayne is currently managing numerous properties ranging in size from 5ha to 100's of ha on the Willunga-Sellicks escarpment, as well as helping to secure funding to rehabilitate the numerous water-courses that flow from the escarpment.

Wayne

Wayne secures the funding that is required to assist landholders in repairing some of the damage that has been caused to a number of properties in the area. This may be fencing off water-courses so that stock do not have unlimited access to the creek-lines, it may be revegetating sections of properties to arrest erosion issues or extend remnant vegetation or it may be the removal of woody weeds.

Wayne brings extensive technical and local knowledge to the area having a degree in ecology gained from Flinders University and with his family living in the local area for a number of generations. Wayne is currently working with the Willunga Hillsface Landcare Group to provide project management for the Regreen the Range project. Contact Wayne at the Centre on 08 8556 4188.

Simon Beed has returned...

Simon worked as a volunteer at the Willunga Community Landcare Centre from 1996 – 2000, he has now returned to the Willunga Environment Centre following completion of Flinders University studies in Environmental Management and various industry appointments. Through his business, "Planright Environmental", Simon brings to the Willunga Basin an extensive environmental network. Planning Applications, Environmental Impact Assessment study and reporting, Environmental Management Planning and Reporting, Project (environmental portfolio) management, government policy framework development, legislative referrals processes (eg EPBC Act 1999), community consultation, environmental management systems, and terrestrial environments on-ground rehabilitation works exemplify some of Simon's key roles.

These days his research interests are primarily in the field of environmental management, planning/development, and community consultation. These stem into two particular focuses. Firstly, those within the energy/renewable energy sector including: utility scale wind farms; demand side energy (energy efficiency), and; government policy. The second focus is in the rural and residential sectors including sustainable environmental land management. Simon brings his skills to the Centre to assist in the sustainable environmental management of the regions environmental assets, through both his consulting, and in developing new environmental initiatives for the region in line with the regional environmental management priorities.

Contact Simon at planrightenvironmental@bigpond.com or at the Willunga Environment Centre on 08 8556 4188.
